## WORK EXPERIENCE

### Nexon | Sep 2024 - now

- **Position:** Junior Game Developer at Nexon (the largest game company in Korea and ranks among the top 10 globally).
- **Description:** Contributed to the development and implementation of in-game events and promotional content for popular Nexon titles, including FIFA Online 4, Crazy Arcade BnB, Blue Archive, The Kingdom of the Winds, and Mabinogi.
- **Responsibilities:**
  - Oversee task progress for the team and report product completion to Nexon Korea.
  - Coordinate with Nexon Korea to clarify requirements and request necessary assets.
  - Collaborate with a small team (typically 2–4 members, sometimes solo) on product development.
  - Resolved bugs and make improvements based on feedback or changes requested by Nexon Korea during their review.

### FPT Software| Sep 2023 - Aug 2024

- **Position:** Full-stack developer at FPT Software (largest outsourcing company in Vietnam).
- **Description:** Contributed to the development and implementation of the CurbWaste project - a comprehensive platform designed to optimize operations for waste hauling businesses. CurbWaste helps improve operational efficiency and profitability while supporting more effective and sustainable waste treatment practices.
- **Responsibilities:**
  - Implemented user interfaces based on provided prototypes.
  - Developed and integrated APIs, migrating data from MongoDB to PostgreSQL.
  - Communicate directly with customers (USA) and development teams in India.
  - Resolved bugs and optimized code to enhance application performance.
  - Provided regular progress updates in daily meetings with the Project Manager.
